COMMENTS FROM THE TOWN MANAGER'S OFFICE

Work has started on the Town Road Improvement Fund project on the Grover Hill Road. The work starts at the end of the 1960 project and will continue as long as funds permit. The State Highway Commission has allocated \$6,097.31 for the work. Any unexpended balance will be carried forward to 1962.

A 60 ton car of rock salt was unloaded last week, to be used in winter sand and on the highway. A second carload is scheduled for delivery on Dec. 20.

The law for making commitments to the Augusta State Hospital has been completely revised so that under the new law the Board of Selectmen are not concerned with committing mentally ill persons. In the future arrangements are to be made through a family physician.

Sincerely,
Harold L. Bean

Official Explains Andover Project

Cabot Lodge, Knights of Pythias, and Ellis Glen, Pythian Sisters, of Andover, sponsored a "Citizen's Night" on Wednesday evening, Sept. 20, with the ladies serving supper to 125 prior to a most informative speech given by Burdick Pierce, engineer for the American Telephone and Telegraph Co. Thomas Stouter, Business Manager of the New England Telephone Company in Rumford, showed a movie, "The Big Bounce." Approximately 250 interested people gathered to hear about the Satellite Communications Station being built at Andover.

Mr. Pierce pointed out that while the project is being built and will be owned by the A. T. & T., other international communication carriers and National Aviation and Space Administration will use these facilities for testing purposes.

The satellites being built by A. T. & T. will be active and not passive types and will be put in orbit by N.A.S.A. A. T. & T. will design and build the satellites at its own expense, and will reimburse N.A.S.A. for the costs of the facilities and services which N.A.S.A. will furnish in connection with the project.

"Echo" is 1000 miles out into space but this one will be approximately 3000 miles out and will be three feet in diameter and weigh 120 pounds.

Each satellite will take five and one half hours to circle the globe. Testing satellites will be designed to have life expectancy of at least one year.

Sites for three relay stations between Andover and Portland have been selected and tested. One on Black Mountain, outside Rumford; one at Shaw's Ledge in Greenwood; and one in Cornish. The one at Black Mountain will be a 250 foot self-supporting tower and a road is now being built to this area. This tower was previously planned for a Farmer's Hill site in East Andover. After November it is expected the red lights on the Black Mountain tower may be seen from quite a distance.

Testing was done there recently, and many may have seen the lights.

Plans are for an exhibit building on "The Hill" within a month. A parking area is now being constructed. Visitors will be welcome at this time. At present the gates are closed to enable construction workers to meet the deadlines in November.

Local men have been hired as much as possible but it will take 24 to 30 technicians to operate the site on completion. Most of these will be telephone company men and they will have to see to their own housing.

JAYCEES MEMBERSHIP DRIVE IN PROGRESS

TO HOLD HARVEST BALL

The Bethel Jaycees met Tuesday night at their club rooms with 12 teachers present. An orientation followed the business meeting with Joe Newcomb, State Vice President, as principal speaker. A membership drive for active young men between 21 and 35 is on. Plans were made for a Harvest Ball Dance to be held at the Top Hat, Oct. 6.

Refreshments were served after the meeting at Sonny Blake's home by members of the Jaycee Wives.

WEEK END CAR CRASHES

A car operated by James W. McNamara of Brockton, Mass., was badly damaged early Saturday morning when it left the road near the State line in Gilead. It is reported that the driver fell asleep. A passenger, Beverly A. McNamara of Somerville, Mass., was slightly injured.

Roland Jacques of Rumford was treated for internal injuries at the Rumford hospital early Sunday morning. He was a passenger in a car driven by Jerry Lapham of Mexico, who was not injured when the car skidded and crashed broadside into a utility pole. The crash occurred about 11 o'clock Saturday night when turning from Route 5 to Lover's Lane at the foot of Mill Hill.

Local men have been hired as much as possible but it will take 24 to 30 technicians to operate the site on completion. Most of these will be telephone company men and they will have to see to their own housing.

Gould 31—Lyndon 0

Gould Academy opened its season by taking Lyndon Institute 31 to 0, doing all their scoring in two periods. Gould opened by marching from their own 38 yard line to the L. I. 9 where a fumble gave the ball to the visitors. Neither team could put on a sustained drive during the remainder of the opening quarter.

Early in the second period Gould punted to the 12 yard line where Lyndon took over. Three plays later Gary Hill recovered a fumble on the L. I. 19 yard line. On the first play, Steve Parent romped the 19 yards off his own left end to score. The place kick failed.

Moments later Owen Melville intercepted a Lyndon pass and went 28 yards to the visitors 2 yard line. Scott Cummings rounded his own right end to score. The place kick failed.

With time running out Scott Cummings intercepted a pass at the G. A. 35 and brought it back 17 yards to the 48 yard line of the Vermonters. Steve Parent carried for 17 yards, Jay Langley for 11, and on the final play of the half, Scott Cummings passed to Parent for a 20 yard T. D. play. Owen Melville kicked the extra point.

Neither team threatened in the third period. Near the middle of the final quarter, the Institute eleven was held for downs on their own 44 yard line. Gould lost 2 yards on the first play, but Steve Saunders went through right guard for 18 yards on the next play and then Steve Parent rounded end for 28 yards and Gould's 4th T. D. The place kick failed.

Gould's final score came after its fifth pass interception of the day, this time on the loser's 35 yard line. A pass from Cummings to Parent went 31 yards to the 4 yard line. Cummings bootlegged on the next play to score. An attempted pass failed for the extra point.

Gould passed 9 times connecting 4 times for 56 yards, one a T. D., and 1 intercepted. The Vermonters also passed 9 times, but 6 were intercepted and only one completed for 23 yards.

We opened our meeting with a religious service led by Stephen Dock and Martha Keniston.

Next we had our business meeting. The Secretary's and Treasurer's reports were read. Old and new business was discussed. Next Friday night's dance will be led by Stephen Dock, Matty Brooks and Diane Swain. It will be for the 4th, 5th, and 6th grades from 7:00 to 9:00.

Then we started discussing the Council meeting that we are having next Sunday night. We are inviting our parents, as well as the council members, so that they will understand what we are doing at MYF. We are also going to plan our program for this coming year.

We had a very interesting discussion on teenage drinking led by Donnie Young, and Doug Bane.

There were 27 members at our meeting this week. That is four more than there were last week. — Respectfully submitted, Secretary Nancy Brown.

DENTAL HEALTH

Last week the ways in which
the State's Division of Dental
Health can cooperate with lo-
cal groups were introduced.
Their chief way is to stimulate
children and adults to want
healthy mouths. The dental
health survey was mentioned
as a method of doing this. It
does help the child, without
any treatment taking place.

It also helps our area com-
mittee in its future planning.
These inspections are recorded,
and tallied, to help us answer
the question, "What are dental
health problems here?" These
figures can be used to plan the
program for follow-up care.
Since the survey coincides with
the start of this program, the
information can be compared
with future survey results at
five and ten-year intervals to
help the committee measure the
success of its work.

Members of the Division's
staff also work with the office
of health education, and state
and local departments of edu-
cation to assist in planning
more effective health education

GOULD STUDENT NAMED SEMI-FINALIST IN MERIT SCHOLARSHIP CONTEST

Headmaster Edmond J. Vach-
on of Gould Academy announce-
d Wednesday that one of the
school's students has been given
recognition for his high
achievement in the initial stage
of the seventh annual National
Merit Scholarship competition.

The student was named semi-
finalist in the 1961-62 Merit
Program as a result of his
outstanding performance on the
National Merit Scholarship
Qualifying Test. He is Anthony
D. Moulton of Palermo.

He is one of approximately
10,000 seniors throughout the
country who attained semifinal-
ist status through high scores
on the qualifying examination
given last March in more than
15,000 high schools. Each semi-
finalist now moves a step
closer to winning a four-year
scholarship to the college of
his choice.

To increase their opportuni-
ties to obtain financial assis-
tance if they need it, the Merit
Corporation sends the names
of semi-finalists to all accred-
ited colleges and universities
and to other scholarship-
granting agencies and financial
aid sources. The semi-finalists
will take another rigorous ex-

amination, the three - hour
Scholastic Aptitude Test of the
College Entrance Examination
Board, to be given in testing
centers throughout the nation
on December 2.

Students whose scores on the
second test substantiate their
performance on the qualifying
test and who are endorsed by
their high schools will become
finalists in the competition. In
the final competition, high
school grades, extra curricular
activities, school citizenship,
and leadership qualities will
be evaluated along with scores
on the tests.

About April 26, 1962, the
names of the Merit Scholars
will be announced. Each Merit
Scholarship is a four-year award.
Stipends now average \$800
a year.

This program was establish-
ed in 1955 and has thus far
contributed direct financial as-
sistance to nearly 5,000 stud-
ents and their colleges.

Eldon Greenleaf.

Attending were Mrs. Stanley

For this type of service, they
compile, and obtain from other
sources, interesting literature,

which are available to the pub-
lic. This service was used by
the dental health committee
when it conducted a film pro-
gram in all of the area schools
last May.

FRED LINCOLN NAMED HONORARY CHAIRMAN

Dr. John W. Trivard,
Bethel Campaign Chairman,
has announced the appointment
of Fred Lincoln, one of Beth-
el's more recent Eagle Scouts,
as Honorary Chairman of the
1961 Pine Tree Council Boy
Scout Finance Campaign in
Bethel. Lincoln, son of Mr.
and Mrs. Arthur Lincoln of
Evergreen Road, graduated
from Gould Academy last June
after an outstanding record
both scholastically and in ath-
letics. His talent in skiing and
first-aid, much of the latter ac-
quired in Scouting, made him
one of the better members of
the Sunday River Ski Patrol
during the past two winters.

After a summer at the Bethel

STAN FREEMAN, PIANIST
OPENS CONCERT SEASON
AT RUMFORD OCT. 9

Stan Freeman, pianist-satir-
ist, is the choice for the first
concert of the Rumford Com-
munity Concert Association
1961-62 series. He will appear
at Rumford's Stephens Abbott
Auditorium at 8:15 p. m. on
Oct. 9.

He is one of the most versa-
tile entertainers to enter the
national spotlight in many
years, a performer in four di-
mensions. He first scored as a
classical pianist, which still
forms the base of his programs,
then as a pop piano duetist, and
suddenly discovered he could
play pop, too. Next, he soared
into prominence as a brilliant
comedian. All these talents are
put to work in his concert
tours, presenting an evening
reminiscent of Victor Borge
and George Feyer.

His early career was that of
child prodigy, boy professor (at
17 the Julius Hart School of
Music at Hartford's youngest
faculty member) and symphony
soloist. During his Army Air
Force days he learned about
jazz from the Glenn Miller
band. Then a return to civilian
life found him busy with radio
and recordings. Later still were
concerts, cafe dates, recitals,
and TV. Among the latter were

Experimental Liberalization of Out-Patient Benefits

Effective October 1, 1961

For a test period beginning October 1, 1961, the Associated Hospital Service of Maine is liberalizing its out-
patient benefits in the hope of discouraging unnecessary admissions for hospital bed care. This experiment in
no way alters the contractual obligations of AHS, or the contractual rights of the subscriber; it involves no change
in the subscription charges and is subject to modification or termination as AHS may determine.

WHAT CHARGES ARE INCLUDABLE?

Only the customary and reasonable charges that have been paid to a Participating Hospital for the follow-
ing out-patient services for have been paid to a Participating Physician if the patient was then enrolled in Blue
Shield are included in this liberalization:

X-ray Examinations, teeth extracted

Electrocardiograms

Electroencephalograms

Basal Metabolism Tests

Pathology Examinations of Spinal Fluid or of Surgically Removed Tissue

To be includable, the service must have been rendered on or after October 1, 1961, and while the patient was
enrolled under the Subscriber's Blue Cross or Blue Shield contract with Associated Hospital Service of Maine.
If the expense incurred was either wholly or partially recoverable under any other applicable health benefit
plan, personal or group insurance, it is not eligible for indemnity under this liberalization.

HOW TO APPLY FOR REIMBURSEMENT

Pay the hospital or doctor who renders the service. Complete in full Claim Form XOP, available from
Participating Hospitals, Participating Physicians, AHS, and many Group Remitters. Attach to it the receipts on
which indemnity is sought and follow the directions given on the claim form. It is permissible to combine for pro-
cessing as a single claim includable expenses incurred by the same patient within 31 consecutive days.

AHS intends to share the includable expense with the subscriber, as follows for each claim, subject to the
maximum indemnity under any one subscriber's Blue Cross and Blue Shield contracts being \$100 in any period
of 12 consecutive months.

IF THE TOTAL INCLUDABLE
CHARGES AMOUNT TO

\$10.99 or less
11.00 to \$34.49, inclusive
34.50 or over

AHS WOULD INDEMNIFY
THE SUBSCRIBER

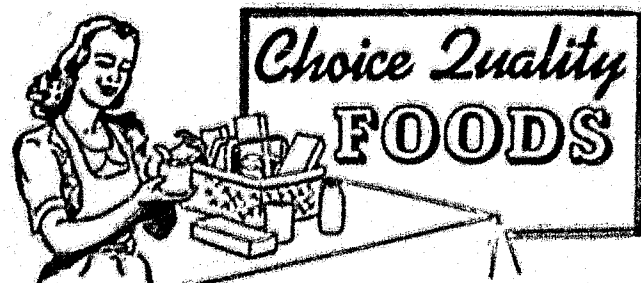

Nothing
Total charges less \$10.00
70% of the total charges

* If the member is entitled, under a group contract issued by AHS for special additional benefits, to full
coverage on diagnostic expense incurred while an in-patient, the experimental out-patient benefit here-
under is 100% of the includable charges less \$10 per claim. No indemnity is payable if the amount would
be less than \$1.

SCHOOL NEWS

School hot lunch programs will begin next Monday, Oct. 2. Cost of meals will be 30c per day the same as last year.

Union 22 teachers participated in an arithmetic workshop held at CPS last Friday. Speakers from the State Department of Education included Clarence W. Bennett, Mathematics Supervisor, and Villa Quinn, Elementary Supervisor.

Bennett in speaking about modern mathematics pointed out that much of the development was due to the present era of technological development. These changes he felt created a need for a new math program which is already developing and he cited as an example the integration by high schools of their trigonometry course with algebra and geometry and offering during the fourth year of high school study probability and statistics. Although changes were occurring, Bennett pointed out that this did not mean that all of the present math program would be changed; his emphasis was rather on a need for modification in certain areas.

Bennett said that the recently developed high school modern math programs had had an impact on junior high schools and that at present elementary programs were developing. Two well known elementary math program groups are located at Stanford and Illinois Universities.

As an example of recent math development, Bennett demonstrated the use of number systems other than the commonly used 10. These number systems developed by pupils themselves he said, "allow each pupil to understand what they do when they use numbers."

which really are symbols."

Villa Quinn spoke on the method of selecting modern mathematics textbooks for use in the elementary schools.

Following the meeting it was decided that a union-wide committee would be formed to obtain and evaluate all currently published elementary mathematics books so that the best textbook could be provided.

There will be no school in Union 22 on Thursday and Friday, October 5-6 when the annual Maine Teachers Association convention will be held in Lewiston.

SPEAKS AT ANDOVER

—continued from page one—
If plans go as scheduled two satellites will be launched. Tentative dates are April 1962 and another six months after the first launching.

France, England, West Germany and Brazil have hopes of building similar projects. It appears that France will be the country who will be ready first. A delegation has already been in Andover looking over the site.

During the actual testing there is a possibility of 60 to 100 men at one time on the site and it is understood that the Bell Laboratories have made arrangements with Bethel Inn to take care of these technicians.

The N.A.S.A. will also launch and test communication satellites between June and December 1962 known as "Project Relay." The Long Lines station at Andover will be used for this experiment under contract with N.A.S.A. The British and French will participate across the Atlantic.

United States is ahead of other countries in space communications.

The Radome covering is needed to protect the antenna from heavy snows and wind. Even a varying 10 or 15 mph breeze could cause the antenna to move enough to lose contact with its distant target.

The covering for this first antenna will be 20 tons of fabric and synthetic rubber 1-16" thick, held up by air pressure. The dome is 200 feet across and 161 feet high.

A question period was held and Mr. Pierce answered to the best of his knowledge.

The satellites would no effect TV or radio; the signal would not be affected by the weather; the area would not be a target in case of war, no more than any other telephone office or broadcasting station.

Hunting in the area will be restricted and signs "Please, no hunting" will be posted. Pierce pointed out that men

would be working in the inflated bubble and any mischief would cause serious trouble.

SOLICITORS PARTY

Workers on the Annual Membership drive for Oxford County Extension Association have a little fun in store for them. The membership committee, Donald Mason, chairman, met recently and outlined plans for this event. A solicitors party to follow annual meeting is being planned. All solicitors who have secured five members will be invited to this party. Suggestions were that entertainment be furnished by the three communities with the lowest percent of renewed members. This spells a good time for all. Details of membership plans were decided upon with the men's membership being done at first by mail and the women and joint membership by community solicitors. On Oct. 10 the men solicitors will work on community solicitation. Final membership results, it is hoped, will be in the Oxford County Extension Office Nov. 1 which is one week before annual meeting.
